github.com/SohrabAli Portfolio (Live Projects) Roorkee, Haridwar, Uttarakhand

Summary

Pursuing B.Tech with hands-on experience in building scalable backend applications using Node.js, Express.js, MongoDB, etc. Strong foundation in system design, and experience integrating API features into real-world applications. Proven ability to create REST APIs, implement secure authentication, and Proven ability to develop scalable REST APIs and implement secure authentication.

Technical Skills

Programming: JavaScript (ES6+), TypeScript, C, Java (Basic)
Backend: Node.js, Express.js, NestJS, RESTful API Development, Authentication (JWT), API Integration, BullMQ
APIs & Integrations: WhatsApp Business API, Meta/Facebook Cloud API, API Integration, Webhooks
Database: MongoDB, MySQL, Supabase, Redis (Basic)
Tools & Platforms: Git, GitHub, VS Code, Postman, Docker (Basic), AI Tools (GitHub Copilot, Codex, Claude)

Experience

Backend Developer Intern **Aug 2026 – Nov 2026**
TryLity Automation Solutions (Remote)
- Working as a Backend Developer Intern, contributing to backend development and automation tasks.
- Developing and maintaining WhatsApp Business API automation workflows and integrations.
- Assisting the development team with backend development, debugging, testing, and API improvements.
- Building and maintaining backend APIs, database schemas, and server-side workflows based on project requirements.
- Completing assigned project deliverables within expected timelines while following team guidelines and best practices.

MERN Stack Developer – ERP System (Live) **Jan 2026 – Mar 2026**
Haridwar University (Offline)
- Developed scalable backend APIs using Node.js, Express.js, and MongoDB for a production ERP system.
- Implemented secure JWT-based authentication and role-based access control (RBAC).
- Optimized database queries and improved backend performance.
- Built responsive UI components and integrated real-time features.
- Collaborated in a team using Git and a modular architecture.

Web Developer Intern **Oct 2025 – Nov 2025**
CodeSoft (Online)
- Developed full-stack web applications using React, Node.js, Express.js, and MongoDB.
- Built and integrated RESTful APIs for scalable applications.
- Optimized backend performance and maintained clean, modular code.
- Collaborated remotely to deliver production-ready features.

Projects

Report System for Local Municipalities *React, Node.js, Express.js, MongoDB*
- Developed a citizen reporting platform with role-based access for citizens and officials.
- Integrated geo-tagging to capture and track issue locations.
- Built responsive React interfaces and REST APIs for report management.

Quiz Web App *EJS, Node.js, Express.js, MongoDB*
- Developed a full-stack quiz platform with role-based access for creators and candidates.
- Implemented quiz creation, MCQ management, automated scoring, and result generation.
- Designed MongoDB schemas using Mongoose for users, quizzes, questions, and performance data.

Certifications & Achievements

- **NPTEL Certification in Database Management Systems (DBMS)**, IIT Kharagpur (8-week course).
- **JavaScript Certification**, IIT Bombay (2025), Score: 80/100.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering **2023 – 2027**
Haridwar University, Haridwar *CGPA: 7.0 / 10*

Higher Secondary Education (Class XII) **2023**
Krishna Public School, Faridpur (Bareilly) *67%*
